THE WHITE HOUSE

President Johnson has signed an Executive Order entitled, "Amending Regulations Relating to the Safeguarding of Vessels, Harbors, Ports, and Waterfront Facilities of the United States."

Executive Order 10173, issued in 1950, established regulations concerning the protection and security of vessels, harbors, and waterfront facilities. The Coast Guard, as the responsible agency, has administered and enforced these regulations since that time. Recent experience has indicated a need to expand the scope of these regulations by providing for the establishing of Security Zones over and adjacent to waters near areas where ship launchings are taking place in order to restrict the entry of persons or vessels by any manner or means. This amendment will accomplish that purpose.

In addition, Executive Order 10173 is being amended to apply existing provisions to the newly authorized zones when they are established and to clarify the definition of a Captain of the Port.

It is expected that with these amendments, the task of preventing damage or injury to vessels and waterfront facilities, as well as persons, will be made simpler and more effective.
